Raquel,

Can you give me any idea on when the Ranking member is expecting to receive this information?

I know this is a breaking news story today and I heard on NPR that the governor issued a state of emergency in several counties and that a drinking water plant has been contaminated.

Nate

A direct question from the Ranking Member of T&I: can you get me a list of all spills/CWA violations/other EPA statute violations by Freedom Industries that EPA is aware of in the past 10 years?

This is about the spill in WV.

Many thanks,

Raquel Snyder
